

Pen type visible malfunction detector

BWJ650-*0

features

- LD light source
- CW & MOD work mode
- FC, SC, ST universal connector
- stable output frequency
- long distance detect
- strong & durable casing
- pen type design, portable, and easy to use

application

- optic fiber communication and maintenance
- security system optic fiber transmitter setup and maintenance
- optic fiber CATV system and maintenance
- optic fiber sensing research
- optical devices manufacture and research

Spec

Model Name	BWJ650-*0			
Wavelength	650±10nm			
Output Frequency	1mW	10mW	20mW	30mW
Detect Distance	≥1km	≥10km	≥20km	≥30km
Optic Fiber Category	SM、MM			
Testing Connector	2.5mm universal connector(FC/SC/ST)			
Work Temperature	-20℃~+60℃			
Storage Temperature	-40℃~+85℃			
casing material	stainless steel			
size	φ25x175mm (excluding connector)			
battery spec	2 AA-size alkaline batteries			
weight	200g (excluding battery)			
package	black canvas bag & a tiny white box			

Outer Packing Pics

光源强劲 穿透力强

LASER 进口激光头，轻松穿透，稳定性能出众
